## PROFESSIONAL SUMMARY

Senior Teradata Engineer and SQL Server DBA with extensive experience in database administration, Teradata development, SQL optimization, workload management, and enterprise-scale data platform support. Skilled in performance tuning, ETL/ELT support, schema conversion, SQL rewriting, and cloud migration initiatives from Teradata to GCP BigQuery. Experienced in managing and optimizing large-scale OLAP environments (60+ TB), supporting business-critical workloads, and collaborating with analytics, ETL, and reporting teams. Actively certified across Teradata, GCP, AWS, Snowflake, Databricks, MongoDB, Salesforce, and OCI.

## CORE SKILLS

- **Database Administration & Query Optimization:** Microsoft SQL Server DBA, Teradata Vantage, Advanced SQL, Query Optimization, Explain Plan Analysis, Statistics Optimization, Indexing Strategies.
- **Workload & Database Management:** TASM, Viewpoint, Workload Management, Space Management, Stored Procedures, Window Functions, Aggregate Functions, Join Strategies.
- **Cloud & Data Migration:** BigQuery, GCP, Teradata to GCP Migration, Data Validation, Starburst (Trino) Cloud Integration.
- **ETL & Operations:** ETL/ELT Support, FastLoad, MultiLoad, TPT, BTEQ, Shell Scripting, Unix/Linux.
- **Governance & Security:** User Management, Roles & Privileges, Audits, Data Governance, Backup/Restore/Recovery.
- **Production Support:** P1/P2 Incident Handling, On-call Support, Production Support, Root Cause Analysis (RCA), SLA Management, HELIX, BMC REMEDY.

## PROFESSIONAL EXPERIENCE

### Tata Consultancy Services (TCS) – SQL Server DBA

Jun 2026 – Present

- Administer, maintain, and support production Microsoft SQL Server databases ensuring high availability, peak performance, and data security.
- Perform query performance tuning, index maintenance, execution plan analysis, and statistics updates to resolve performance bottlenecks.
- Manage database backup, restore, point-in-time recovery, and disaster recovery plans to maintain business continuity and strict SLAs.
- Oversee user management, security roles, access privileges, and audit compliance across SQL Server environments.
- Handle P1/P2 incidents, conduct root cause analysis (RCA), and implement permanent resolutions for recurring production issues.

### Accenture Solutions Pvt. Ltd. – Application Development Sr. Analyst (Senior Teradata Engineer)

Feb 2021 – Jun 2026

- Developed and optimized complex Teradata SQL queries for enterprise-scale OLAP systems handling 60+ TB of business-critical data.
- Performed SQL performance tuning using explain plan analysis, statistics optimization, indexing, and workload balancing techniques.
- Administered and supported Teradata Vantage production environments ensuring high availability, reliability, and performance.
- Supported Teradata to GCP BigQuery migration initiatives including schema conversion, SQL validation, and post-migration testing.
- Implemented workload management and monitoring using Teradata Viewpoint and TASM.
- Managed backup, restore, and recovery operations using ARC utilities to ensure business continuity.
- Implemented space management, data purging, archival, and cleanup strategies to optimize storage utilization.
- Administered security controls including users, roles, profiles, access privileges, and audit compliance.
- Handled critical production incidents (P1/P2), conducting detailed root cause analysis (RCA) and implementing permanent fixes.
- Collaborated with ETL, analytics, and reporting teams to resolve query issues and improve execution efficiency.

- Automated operational activities and monitoring tasks using Shell scripting and Unix utilities.

EDUCATION

---

G.L. Bajaj Institute of Technology & Management (AKTU)

Greater Noida

Bachelor of Technology (B.Tech) – Computer Science & Engineering | Score: 78%

CERTIFICATIONS

---

- Google Cloud Professional Data Engineer
- Google Cloud Professional Cloud Architect
- AWS Certified Data Engineer – Associate
- Snowflake SnowPro Core Certified & SnowPro Advanced Administrator
- Databricks Certified Data Engineer Associate
- Teradata Vantage Cloud Lake Associate
- MongoDB SI Associate & SI Architect
- Oracle Fusion Cloud Applications (ERP & HCM) – Foundations Associate
- Salesforce AI Associate & Google Cloud Certified Cloud Digital Leader
- LFC131: Green Software for Practitioners
- Oracle Cloud Infrastructure Foundations Associate (2021, 2023, 2024)

ACHIEVEMENTS

---

- Top 1000 Winner – Google Cloud Arcade 2024
- Top 500 – Oracle Community Challenge 2025
- Multiple Salesforce Trailhead milestone achievements
