

ITGC AUDITOR

NAME: FIROZ AHMED

Mail: firoz.auditor@gmail.com

Mobile : 9059638367

Professional Summary:

Having around **9.10 years of IT experience**, including **4.5 years in ITGC Controls Testing and SOX Compliance**, Proven ability to design and execute risk-based audit plans covering **walkthroughs, Test of Design (TOD), Test of Effectiveness (TOE)**, and remediation strategies.

- Hands-on expertise in Access Controls, Change Management, and Operations Controls testing.
- Skilled in SAP ECC 6.0 security across various business modules.
- Successfully reduced SOX deficiencies through continuous monitoring, root cause analysis, and process improvements.
- Adept at communicating audit findings and control gaps to stakeholders, both verbally and in writing.
- Strong understanding of SOC 1 & SOC 2 (Type I & II) reporting frameworks.
- Supported multiple external audits by providing accurate and timely control evidence.
- Maintained audit documentation including control test plans, issues logs, mitigation strategies, and compliance dashboards.
- Worked collaboratively with cross-functional teams to ensure alignment with regulatory, ITGC, and internal control requirements.
- Evaluated IT risks, gathered control evidence, and performed gap analysis and risk mitigation for SOX and ISO 27001 environments.
- Played a key role in updating Risk & Control Matrices (RCM) and control narratives to reflect business and regulatory changes.
- Demonstrated strong command over remediation tracking, issue closure validation, and preparing management response reports.
- Supported continuous monitoring frameworks by developing compliance trackers, dashboards, and reporting tools.
- Familiar with tools such as Archer GRC, ServiceNow, SAP GRC, and Excel-based control testing templates for managing audit programs efficiently.

Technical Skills:

- Internal Audit
- Sarbanes Oxley Compliance (SOX)
- IT General Control Reviews
- Change Management
- Access control
- IT Compliance
- Risk Management

Educational Qualifications:

- M.Tech in Computer Science Completed from J.N.T. University 2012 - Hyderabad

Working Experience:

Organization: Quess Corp Limited

Role: Information Security Analyst

Duration: Nov 2025 – Jul 2026

Responsibilities:

- Conduct quarterly and annual **User Access Reviews (UARs)** for business-critical applications, ensuring user access is appropriate, authorized, and compliant with organizational policies.
- Perform **SaaS application audits** covering user provisioning, deprovisioning, privileged access, MFA, SSO integration, service accounts, and access governance controls.
- Execute and support **SOX ITGC testing**, including User Access Management, Privileged Access Management, User Termination, and User Access Review controls, ensuring timely completion of audit requirements.
- Collaborate with application owners, business stakeholders, and control owners to collect evidence, identify control gaps, track remediation activities, and strengthen compliance posture.
- Partner with internal and external auditors to facilitate audits, address audit inquiries, and ensure compliance with SOX, regulatory, and organizational security requirements within established timelines.

Organization: Teradata India Pvt. Ltd

Role: Senior ITGC Auditor

Duration: Nov 2021 – Dec 2024.

Responsibilities:

- Supported **Quarterly Privileged User Access Reviews**, identifying gaps, risks, and areas for improvement across various business-critical systems.
- Collected, analyzed, and interpreted **risk and control data** to identify emerging trends and drive proactive mitigation strategies.
- Ensured timely execution and submission of **SOX audits**, including ITGC and application-specific controls, on a quarterly basis.
- Performed **data reconciliations** across Applications, Databases, AWS, and Azure using automated tools; flagged discrepancies and ensured timely remediation.
- Acted as a liaison with external auditors and internal stakeholders to ensure **regulatory compliance within agreed timelines**.
- Confidently articulated **business risks and technical issues** to senior stakeholders, promoting clarity in audit reporting and control ownership.
- Reviewed and updated **Test of Design (TOD)** and **Test of Effectiveness (TOE)** documentation in Risk & Control Matrices (RCM).

- Escalated observations or control gaps to **senior auditors and IT leadership**, supporting timely risk resolution.
- Conducted **ITGC control assessments** and performed **Test of Design (TOD)** and **Test of Effectiveness (TOE)** across Access Management, Change Management, and Backup operations.

Organization: Wipro Technologies Pvt Ltd.

Role: Analyst

Duration: Jun 2021 – Nov 2021

Responsibilities:

- Supported **SOX 404 audits** by testing internal controls for applications and infrastructure, including SAP ERP environments.
- Collaborated with control owners to **collect evidence**, assess ITGC effectiveness, communicate gaps, and track remediation efforts.
- Drafted and shared **risk matrices** and test results with senior auditors and stakeholders.
- Followed up on **open ITGC and audit observations** and contributed to closure within defined timelines.
- Participated in **audit fieldwork and ITGC walkthroughs**, supported process walkthroughs, and ensured compliance with audit methodologies.
- Participated in regular meetings with **external auditors and internal compliance teams** to align audit timelines and evidence quality.
- Recommended **process improvements** based on lessons learned during testing and supported integration into future control cycles.

Organization: HCL Technologies Pvt Ltd

Role: Specialist

Duration: June 2018 – Jun 2021

Responsibilities:

- Performed database performance tuning and query optimization by analysing Explain Plans, identifying bottlenecks, optimizing statistics, and resolving spool space and locking issues.
- Managed **backup, restore, and disaster recovery activities** using Teradata utilities such as **ARC Main, DSA, NetVault, and Veritas NetBackup**, ensuring high availability and data integrity.
- Executed **Teradata upgrades, patch installations, migrations, and system health checks**, including node additions, PDE restarts, and post-implementation validations.

Organization: Brillio Technologies Pvt.

Role: Senior Engineer

Duration: Jun 2017 To Jun 2018

Responsibilities:

- Administered and maintained large-scale Teradata Data Warehouse environments, including system monitoring, user management, space management, backup/recovery, and performance optimization to ensure high availability and reliability.
- Performed query performance tuning, workload management, database upgrades, patch deployments, data migrations, and troubleshooting of Teradata utilities, reducing system bottlenecks and improving overall platform efficiency.
- Managed backup and recovery operations using ARC, DSA, and enterprise backup tools, while collaborating with application teams to support data refreshes, production deployments, incident resolution, and 24x7 operational support.

Organization: Fujitsu Consulting India Pvt Ltd

Role: Associate Engineer

Duration: Mar 2015 To Jun 2017

Responsibilities:

- Experience using Teradata Administrator to Monitor and Manage Teradata Database. Creating Teradata objects like Databases, Users, Profiles, Roles, Tables, etc. Granting & Revoking of Object Rights, System Rights on Databases / Users / Roles.
- Preparation of backup and restoration scripts and monitoring. Implemented MVC on the tables which is consuming more space and I/O. Working as ticketing POC and preparing change tickets for schedule implementations.
